Dear Bruce:

Thank you very much for bringing your Mobile Science Lab to the sixth grade students at Troupsburg Elementary School. We appreciate the valuable knowledge you shared with them as well as the time you took to help them with all of the hands-on activities associated with the lab.

This educational experience gave the students much to think about in terms of science careers as they consider possibilities for the future. It was truly a special event for them and both the students and teachers were very excited to have you at the school.

Thank you again for making this program possible

Sincerely,
